

Indiana Utility Regulatory Commission Regulatory Commission

Dear Indiana Utility Regulatory Commission Commission,

I am outraged that a highly profitable company like Sprint Nextel is demanding unfair concessions from the workers who make those profits for you. It is unfair to demand concessions on health care, overtime pay, sick and vacation leave, 401k plans and more –especially as you abandon local phone service in our communities.

I believe corporations serve their customers and the public and have a duty to meet the expectations we hold for them. Sprint Nextel is not meeting those expectations. I prefer to do business with companies that treat workers as they should be treated, and I will be watching to see just how you treat your employees during the upcoming weeks & months.

If I don't see that you are treating your employees with the respect they deserve, I will seriously consider droppin my Sprint LD & PCS services, and switch to Cingular for wireless service and AT&T for long distance.

I have tried AT&T years ago and was not happy with their service, and I have heard many complaints about Cingular, too. But I am willing to drop Sprint (the best service I have found!!) if you don't start acting like a responsible corporation with a social conscience. I like to think of Sprint as a leader among U.S. businesses, but your recent actions have brought me to question your status. Your business is nothing without your top notch employees and you should treat them appropriately.

I will be watching, listening and reading to keep up to date on your actions - please don't disappoint me!!

Sincerely,

Maurice Miller
